

## Unmeasured (Unmetered) Supplies

Unmeasured water charges are calculated using the Tax on Real Property (TRP) value of a domestic building (land, outbuildings and greenhouses are excluded from Guernsey Water's calculations). TRP rates are set by the Cadastre.

	2019
Water Charge (per unit of TRP)	£0.28
Quarterly Standing Charge - Water	£14.09
Wastewater Charge (per unit of TRP)	£0.48
Quarterly Standing Charge - Wastewater	£23.67

### Water supplies which include the following uses must be metered:

- Unattended garden hoses, garden sprinklers or automatic irrigation
- The filling or topping up of swimming pools, spa pools or jacuzzis
- Substantial building or construction works
- Any commercial use

It is the customer's duty to inform Guernsey Water of any use of water for the purposes listed above

## Measured (Metered) Supplies

Metered water charges are calculated on the recorded amount of water passing through the property's meter.

	2019
Water Charge (per m <sup>3</sup> - cubic metre - 1000 litres)	£0.99
Quarterly Standing Charge - Water (15mm* meter)	£14.09
Wastewater Charge (90% of water usage)	£1.83
Quarterly Standing Charge - Wastewater	£23.67

\* This is the size of a typical domestic meter

## Cesspit Emptying Rates

Subsidised single load rate: £7.32

Standard single load rate: £18.58

Please note that cesspit emptying income is collected by States Works & can be paid by calling 717315
